Comment: I was told of the Superfund site when I moved here last year but I was not informed with how poorly it was maintained and was not warned of the imminent threat of underground fire heading towards it. I moved here excited to join this community because i heard only good things about this town and how family driven it is here. I am terrified I will not be able to sell my home now that it has been exposed how little our government cares about this community. I am devastated I moved here in the last trimester of my pregnancy and now have to raise my daughter, Miah, here. I always had faith in my government to take care of me and to protect me and now I feel ashamed, naive, and stupid. I hope that this situation gets resolved. For the safety of this town I don't feel like any amount of money is too little to clean up the mess that was unfortunately passed down to us from our grandparents generation. I don't know... I am scared.
